Basic anti-virus protection

Protection for mobile devices as a free gift!

This product does not protect PCs against all types of Internet storms, as it lacks important security components such as anti-spam, HTTP monitor, parental control and anti-virus network. These components are available in Dr.Web Security Space. There is no data loss prevention function in the Anti-virus license.

Features

- Comprehensive anti-virus security solution for your Windows PC.
- Real time protection.
- Installation and operation in an infected system and exceptional resistance to viruses.
- Efficient detection and neutralization of all types of threats.
- Fast multi-thread scanning powered by multi-core systems
- Protection from latest malicious programs designed to bypass detection by traditional signature-based scan and heuristic analysis.
- Comprehensive analysis of packed threats
- Scan of archived files at any nesting level.
- Best detection and neutralization of complex viruses
- Protects against unauthorized access by a network; prevents data leaks; blocks suspicious connections on package and application layers

System requirements

- Windows 8/7/Vista (64-bit) and Windows 8/7/Vista/XP SP2 (32-bit).
- Free disk space: ~ 400 MB. Temporary Files created during installation will require additional disk space.

Additional requirements: Internet connection for registration and updating.

Renewal discounts — from 40% for a 1 year license

- You can renew a valid or expired license with the validity of three months or longer (including OEM licenses) at a discount. There is no expiration date limitation for Dr.Web licenses subject to renewal.
- If at the time of the new license registration your current license has not expired, the remainder of its term will be added automatically to the term of your new license.
- You can renew one key file at a discount only once.

Expand coverage free of charge for up to five PCs

If your Dr.Web license expires in 3 months or sooner and you need to protect another computer or mobile device with Dr.Web, exchange your current license for an expanded one FREE OF CHARGE. An upgrade from Dr.Web Anti-virus to Dr.Web Security Space is also available for free.
