Security Space Pro

Protection components	Dr.Web Security Space Pro	Dr.Web Anti-virus Pro
With the highest rate of detection, **Dr.Web scanner** is guaranteed to quickly check autorun objects, removable data-storage devices, network and logical drives, e-mails, and files and directories including archived files.	✓	✓
SpIDer Guard ensures constant resource-efficient monitoring of file operations.	✓	✓
Anti-spy blocks spyware, adware, riskware, paid dialers and joke programs.	✓	✓
Dr.Web Shield tracks down viruses that use rootkit technologies to hide in a system.	✓	✓
Dr.Web anti-spam detects spam and other unsolicited messages in any language with next-to-zero false positives.	✓	
SpIDer Gate is an **HTTP-monitor** that scans web pages in real time and blocks phishing web sites and other dangerous web resources.	✓	
The Dr.Web parental control blocks access to web sites by key words or by their addresses and will protect your children from exposure to objectionable web content. **Unique!** You can restrict access to removable data-storage devices, files, and directories to prevent unauthorized access or deletion of important information.	✓	
New! Dr.Web Firewall serves as an impenetrable barrier to intruders trying to enter your system.	✓	✓
Dr.Web Mobile Security Suite – the key file for this product will allow you to use Dr.Web anti-viruses free of charge to protect mobile phones, pocket PCs and communicators running Windows Mobile 2003/2003 SE/5.0/6.0/6.1/6.5 and Symbian Nokia Series60 v.9 and higher.	✓	✓

Supported versions of Windows (32 and 64 bit)	Windows 7/Vista/XP/2000 SP4 + Rollup 1
