

# Dr.WEB®

for MIMESweeper

Defend what you create

Anti-virus and anti-spam  
protection of mail traffic  
directed through a ClearSwift  
MIMESweeper content  
filtering server

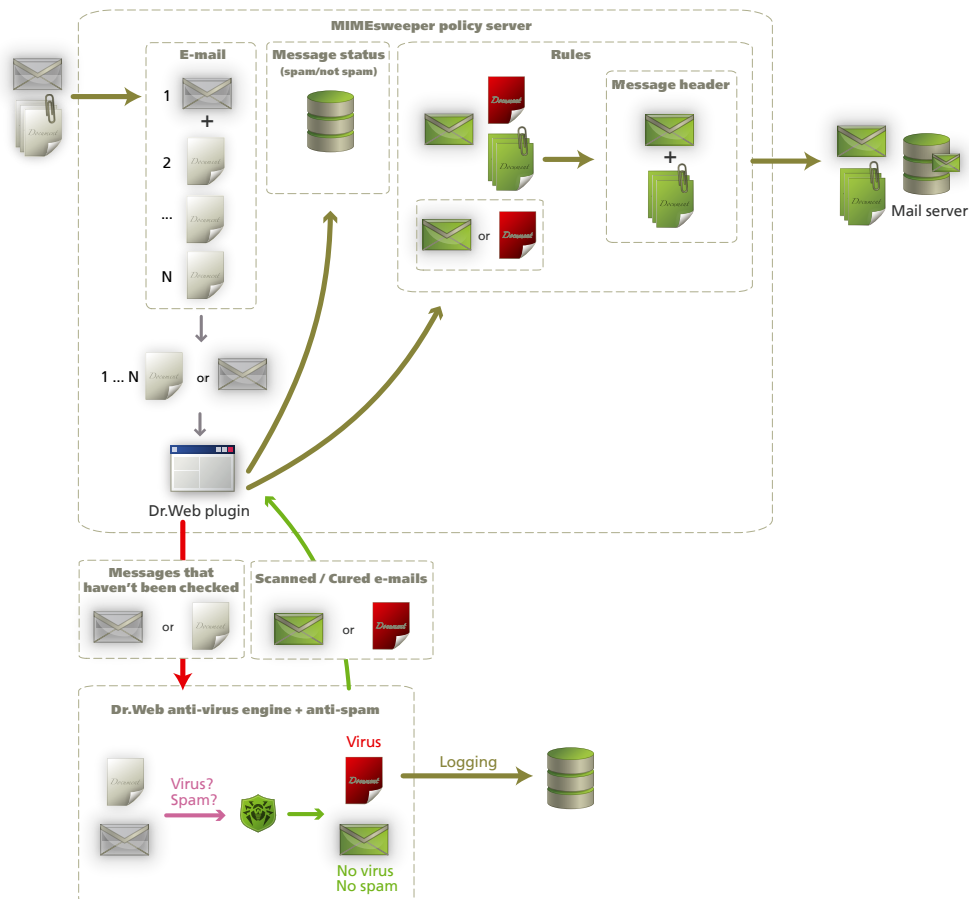

© Doctor Web, 2010

Dr.Web for MIMESweeper is installed on machines that run the MIMESweeper content filter and functions as the first-level scenario recommended by ClearSwift.

The product is connected to MIMESweeper as an anti-virus and anti-spam policy for checking mail; it filters viruses, spam and other unsolicited messages. If a threat is detected, Dr.Web for MIMESweeper classifies a message according to policies assigned by ClearSwift MIMESweeper and disarms the detected malicious object.

## Key features

- Checks e-mails including archived attachments before they are processed by a mail server;
- Cures infected objects;
- Isolates infected and suspicious files in the quarantine;
- Filters spam; filters messages according to black and white lists;
- Operation logging;
- Automatic updates.

## System requirements

- At least 35 MB of free disk space.
- Windows 2000 Server with SP4 or higher or Windows Server 2003 or later
- ClearSwift MIMESweeper™ for SMTP 5.2 or later.

## Licensing

### License types:

- Per number of protected users.
- Per server license – unlimited scanning of server traffic for as many as 3,000 protected users.

### License options

- Anti-virus
- Anti-virus + Anti-spam

Dr.Web for MIMESweeper is also available in Dr.Web bundles for small and medium companies.
