

Dr.WEB®

for Kerio Mail Servers

Defend what you create

Anti-virus scan of messages and
their attachments sent via SMTP
and POP3

© Doctor Web, 2010

The anti-virus connects to the Kerio Mail Server and scans attached files and incoming and outgoing messages.

Advantages

- Perfect compatibility with Kerio mail servers tested by Kerio Technologies;
- Minimal message delivery time achieved through multi-thread scanning;
- Low system requirements and minimal use of local traffic;
- Flexible, user-friendly configuration system: customizable list of scanned objects and actions performed with detected viruses or suspicious files;
- Customizable actions for files that can't be scanned;
- Maintenance and configuration from Kerio mail server administration console.

System requirements

Version for Windows

- Hard disk space: at least 40 MB
- Microsoft Windows Server 2003/2008 Microsoft Windows2000/XP/Vista/7, Operating system: Mail server – Kerio MailServer 6.2 or later, Kerio Connect 7

- Mail server – Kerio MailServer 6.2 or later, Kerio Connect 7

Licensing

Types of licenses:

- Per number of protected users.
- Per server license –unlimited scanning of server e-mail traffic for as many as 3,000 protected users.

Dr.Web for Kerio Mail Server can be purchased as a separate product or as a component of **Dr.Web Enterprise Security Suite**. In the latter case, the license also covers the Control Center of Dr.Web Enterprise Security Suite and the Anti-spam.

A license for **Dr.Web for Kerio Mail Server** may also include the SMTP proxy as an additional component. Using these products together improves overall network security and reduces the workload of local mail servers and workstations.

License options:

- Anti-virus
- Anti-virus + Control Center
- Anti-virus + SMTP proxy
- Anti-virus + Control center + SMTP proxy

Dr.Web for Kerio Mail Server is also available in low-cost bundles for small and medium companies.
