

Dr.WEB®

Dr.Web Security Space for Android

Comprehensive protection from all types of malware targeting mobile devices, anti-virus for Android TV.

Defend what you create

Anti-virus

Protects from Trojans and other malware.

Anti-spam*

Helps avoid unwanted calls and SMS messages.

Anti-theft*

Helps you find your mobile device if it has been lost or stolen, and, if necessary, wipe the confidential information from the device remotely. Unlock anti-theft:

<https://antitheft.drweb.com>.

Cloud Checker

Restrict access to unwanted and potentially dangerous sites divided into several thematic categories. It is particularly useful if a child who is not yet aware of the dangers on the Internet uses the device.

Security Auditor

Troubleshoots the device to identify security problems and offers solutions to them.

Firewall

Monitors application network activity.

Key features

- Real-time scanning.
- Scan files received via a GPRS/Infrared/Bluetooth/Wi-Fi/USB connection or while synchronizing with a computer.
- Two types of scanning (full and custom).
- Enable/disable resident protection for memory cards.
- Scan on-demand the device's entire file system or separate files and folders.
- Scan APK, SIS, CAB, ZIP, RAR and JAR archives.
- Black and white lists to filter incoming calls and short messages.
- Delete infected files.
- Quarantine suspicious objects.
- Restore files from the quarantine.
- Detailed system scanning reports.
- Administer your device remotely with the Anti-theft if the device has been lost or stolen.
- CloudChecker – check web links.

*These components are unavailable on mobile devices without SIM-cards.
**For Android TV devices only anti-virus is available.

Licensing

Dr.Web for Android is available with:

- Dr.Web boxed products.
- Dr.Web Security Space.
- Dr.Web Anti-virus.

If you lose your mobile device or change it for another one, you can run Dr.Web on another device. All you need to do is to use your serial number to get another key file.

System requirements

Android OS 4.0 – 5.2
